O1:

LETTER FROM THE CHAIRMAN

Dear Securityholder

On behalf of the Board of Growthpoint Properties Australia ("Growthpoint"), I am pleased to invite you to participate in an underwritten renounceable rights offer of new Growthpoint stapled securities ("Rights Offer").

As you may have read recently, Growthpoint announced to the market on 30 October 2013 that it was conducting a \$150 million equity raising to fund the acquisition of industrial properties and for capital management initiatives ("Equity Raising").

The Equity Raising consists of the Rights Offer, which is expected to raise approximately \$100 million, and a \$50 million placement to existing and new institutional investors ("Placement"). Growthpoint now invites eligible existing Securityholders to participate in the Equity Raising via the Rights Offer, which is being offered at the same issue price of \$2.45 as the Placement.

The issue price of \$2.45 represents a 4.2% discount to Growthpoint's distribution adjusted last closing price on 29 October 2013 and a 4.7% discount to the distribution adjusted 5-day volume weighted average price to 29 October 2013.

Growthpoint has maintained its distribution guidance for the 2014 financial year at 19.0 cents per stapled security. Based on the issue price, the new stapled securities issued as part of the Rights Offer are expected to receive an initial annualised distribution yield of 7.9%¹.

USE OF PROCEEDS

The total amount to be raised under the Equity Raising is approximately \$150 million. The proceeds of the Equity Raising will be used to fund the acquisition of a modern industrial property in Melbourne, Victoria and to fund the progress and completion payments on a portfolio of three industrial properties currently under development in Melbourne, Victoria, the acquisition of which was previously announced in July 2013. The balance of the proceeds will be used to reduce gearing and for capital management initiatives.

The new assets are expected to enhance Growthpoint's existing portfolio quality and will increase weighting to the Victorian industrial market. The acquisitions further demonstrate Growthpoint's ability to source and execute transactions for the benefit of Securityholders. Further details of the acquisitions and the impact on Growthpoint's portfolio can be found in the Equity Raising presentation and ASX announcement included in this booklet.

OVERVIEW OF THE RIGHTS OFFER

Existing securityholders will receive 1 renounceable right ("Right") for every 10.15 stapled securities held on the record date for the Rights Offer. Securityholders who are eligible to participate in the Rights Offer may choose to apply for all or some of their Rights, sell some or all of their Rights or do nothing. The Rights will trade on the Australian Securities Exchange during the Rights trading period under the ASX code "GOZR".

Securityholders may also apply for additional securities in excess of their entitlement. However, there is no guarantee that they will be allocated any additional securities².

New stapled securities issued under the Rights Offer will be entitled to a pro-rata distribution for the half year ending 31 December 2013 for the period from the date of issue to 31 December 2013, currently expected to be 1.1 cents per stapled security³, but rank equally with existing Growthpoint stapled securities in all other respects. New stapled securities will initially trade under the ASX code "GOZN" until commencement of trading on 23 December 2013 when existing Growthpoint securities trade 'ex' the distribution. From 23 December 2013, new stapled securities will collapse into "GOZ" and rank equally with existing stapled securities for distributions and in all other respects.

The Rights Offer is underwritten by Merrill Lynch. Growthpoint's major securityholder, Growthpoint Properties of South Africa ("Growthpoint SA") has committed to taking up its Rights and to sub-underwrite the balance of the Rights Offer.

PARTICIPATING IN THE RIGHTS OFFER

This booklet contains important information on the Rights Offer to assist you in deciding whether to participate in the Rights Offer. You will find in this booklet the following important information:

- ▶ Timetable of key dates of the Rights Offer
- ▶ Instruction on "How to apply", detailing how to accept all or part of your Rights, or to apply for new securities in excess of your entitlement, if you choose to do so
- ▶ ASX announcements in relation to the Rights Offer and the property acquisitions
- ▶ A personalised Entitlement and Acceptance Form.

1. Based on the distribution guidance of 9.4 cents per stapled security for 1H14 and 9.6 cents per stapled security for 2H14 and assuming that new stapled securities are issued on 11 December 2013.

2. Growthpoint reserves the right to determine the allocation of stapled securities that form part of any shortfall.

3. Based on the distribution guidance of 9.4 cents per stapled security for 1H14 and assuming that new stapled securities are issued on 11 December 2013.

You should read this booklet carefully and in its entirety before deciding whether to accept the Rights Offer, including in particular the 'Key Risks' section of the investor presentation. You should obtain financial advice before deciding whether or not to participate in the Rights Offer.

To participate in the Rights Offer, you will need to either complete the Entitlement and Acceptance Form and send this to Growthpoint's registry together with your payment application monies or pay through BPAY. You must apply for new stapled securities before 5.00pm on Friday, 29 November 2013, otherwise your Rights will lapse.

On behalf of the Board and the Growthpoint management team, I encourage you to consider this investment opportunity and thank you for your continued support.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Lyn Shaddock', with a stylized flourish extending from the end.

Lyn Shaddock

Highlights

- \$150 million equity raising at an offer price of \$2.45 per new Growthpoint stapled security

New asset acquisition

Growthpoint has exchanged contracts to acquire a modern, high quality industrial property located in a prime industrial market in Melbourne, Victoria for a total consideration of \$23.2 million, providing an initial yield of 8.5%. The property is strategically located at 213-215 Robinsons Road, Ravenhall in the new, master-planned Orbis Business Park 20 kilometres west of the Melbourne CBD and proximate to the Deer Park Bypass, providing ready access to the Western Freeway, Princes Highway and the Western Ring Road.

With a net lettable area of 21,092 sqm, the building comprises open plan office accommodation, warehouse and production facilities and was completed in July 2010. ⁵ As at 1 November 2013. The tenant has a termination right at the end of the 11th year of the original term, being in July 2021. If exercised, this would reduce the WALE by 4 years

Growthpoint Managing Director, Timothy Collyer, said,

"The acquisition is a continuation of our strategy to acquire high quality, modern industrial assets, located in prime markets with long WALE and fixed rental increases which will underpin the future growth of Growthpoint's distributable income. Growthpoint has successfully completed a number of industrial acquisitions in 2013 with this latest acquisition further demonstrating the Group's ability to source and execute quality transactions for the benefit of securityholders."

Industrial portfolio acquisition update

Growthpoint announced on 24 July 2013 the acquisition of three industrial properties under development located in prime industrial markets in Melbourne, Victoria for a total consideration of \$60.2 million⁶ from Australand Property Group ("Victorian Industrial Portfolio"). Growthpoint has completed the upfront funding of land and deposits for these properties of \$12.6 million with the balance payable by progress payments on a fund through basis (for two properties) and on completion (for the other property). Progress payments of \$9.9 million have been made to date and the total remaining cost for the Victorian Industrial Portfolio is \$37.7 million.

Lot 45, Atlantic Drive, Keysborough has been 100% pre-committed to Symbion Pty Ltd, a diversified health services business operating under a number of brands including Symbion Pharmaceutical Services, ChemMart Pharmacy, Pharmacy Choice, Symbion Dental and Terry White Chemists. Symbion is a wholly-owned subsidiary of the New Zealand Stock Exchange listed EBOS Group. The Symbion property is forecast to achieve practical completion in December 2013

The other two properties, located in Altona and Keysborough, are under a five year rental guarantee from ASX listed Australand Holdings Limited. The Altona property is forecast to achieve practical completion in December 2013 and the Keysborough property in February 2014. Of the 5 tenancies areas within these properties, heads of agreement have been reached with two tenants to take up 5,480 sqm at Altona and 6,434 sqm at Keysborough, each for 5 years at rents consistent with the Australand rental guarantee. Agreements for Lease for these tenancies are currently being prepared. The ongoing marketing campaign for the balance of the industrial space is proceeding well.

Key metrics of the Victorian Industrial Portfolio⁷:

- Total cost: \$60.2 million
- Total remaining cost to complete: \$37.7 million
- Weighted average initial yield: 8.0%
- WALE: 7.7 years
- Weighted average rent increases: 3.5% per annum
- Occupancy: 100%⁸

Equity raising

Growthpoint is undertaking a \$150 million equity raising at an offer price of \$2.45 per new Growthpoint stapled security ("Equity Raising"). The offer price represents a 4.2% discount to Growthpoint's distribution adjusted last closing price on 29 October 2013 and a 4.7% discount to the distribution adjusted 5-day volume weighted average price to 29 October 2013.

At the offer price, new stapled securities are expected to provide a FY14 DPS yield of 7.8%⁹.

The Equity Raising will consist of:

- A \$50 million placement to existing and new institutional investors ("Placement")¹⁰; and
- A \$100 million, 1 for 10.15 renounceable rights offer to existing eligible securityholders ("Rights Offer")

⁶ Excluding acquisition costs

⁷ As at practical completion of the development of the properties

⁸ Includes five year rent guarantee from Australand at two properties

⁹ Based on guidance of 19.0 cents per stapled security

¹⁰ Stapled securities issued under the Placement will not be entitled to participate in the Rights Offer

The Equity Raising is underwritten by Merrill Lynch Equities (Australia) Limited. Growthpoint's major securityholder, Growthpoint Properties Limited of South Africa ("Growthpoint SA") has committed to take up its full entitlement under the Rights Offer (approximately \$66.4 million). Growthpoint SA will also sub-underwrite the balance of the Rights Offer (approximately \$33.6 million). Growthpoint SA will not participate in the Placement.

Existing Growthpoint securityholders will receive 1 renounceable right ("Rights") for every 10.15 stapled securities held on the record date of the Rights Offer. Securityholders who are eligible to participate in the Rights Offer (being those securityholders with a registered address in Australia, New Zealand or South Africa or who are otherwise eligible to participate) may choose to apply for all or some of their Rights, sell some or all of their Rights or do nothing. The Rights will trade on the Australian Securities Exchange during the Rights Trading Period under the ASX code "GOZR".

Eligible securityholders who take up their entitlements in full may also apply for additional stapled securities at the offer price of \$2.45. Additional stapled securities will only be available where there is a shortfall between applications received from eligible securityholders (or persons to whom rights have been transferred or sold) and the number of new stapled securities proposed to be issued under the Rights Offer. Securityholders who apply for additional stapled securities may be allocated a lesser number of additional stapled securities than applied for, or may be allocated no additional stapled securities at all. Growthpoint, in consultation with the underwriter, may scale back applications for additional stapled securities at their discretion. After the Rights Offer closes, if a shortfall remains following the allocation of additional stapled securities (if any), the underwriter will conduct a bookbuild at the offer price of \$2.45 for any remaining stapled securities relating to Rights not taken up (if any). In this event, securityholders will receive no value for their Rights.

All new stapled securities issued under the Equity Raising will be entitled to a pro-rata distribution for the half year ended 31 December 2013 for the period from issue to 31 December 2013. New stapled securities under the Placement are expected to be issued on 11 November 2013 and carry an entitlement to 2.6 cents per stapled security. New stapled securities under the Rights Offer are expected to be issued on 11 December and carry an entitlement to 1.1 cents per stapled security¹¹. New stapled securities issued under the Placement and Rights Offer will initially trade under the ASX codes "GOZNA" and "GOZN" respectively until commencement of trading on 23 December 2013 when existing stapled securities trade 'ex' the distribution. From 23 December 2013, all new stapled securities will collapse into "GOZ" and rank equally with existing stapled securities for future distributions and in all other respects.

Further detail in relation to the Rights Offer will be provided to eligible Growthpoint securityholders in the Rights Offer booklet.

Capital management initiatives

As part of the equity raising and property acquisitions abovementioned ("Current Transaction"), Growthpoint will achieve:

- A reduction in pro forma gearing to 43.5% from 46.8 % as at 30 June 2013
- An increase of the average duration of its interest rate hedging to better match the maturity of its debt facilities
- A lower cost of debt for all borrowings of 6.0% per annum (including margin)¹²

Growthpoint announced on 24 July 2013 that it had increased its \$825 million syndicated facility agreement ("SFA") by \$30 million to partly fund the Victorian Industrial Portfolio, with this additional amount expiring on 31 March 2014. As the Victorian Industrial Portfolio will be funded by the Equity Raising, Growthpoint intends to cancel this undrawn facility upon receipt of proceeds from the Equity Raising. The closest maturity of any Growthpoint debt facility thereafter is April 2016, with an average weighted debt maturity of 4.3 years as at 30 June 2013.

Following completion of the Current Transaction, Growthpoint will have approximately 87% of its drawn debt hedged with a weighted average interest rate on hedged debt of approximately 4.2%¹³ per annum and

¹¹ Based on guidance of 9.4 cents per stapled security for the half year to 31 December 2013 and assuming new stapled securities issued under the Placement and Rights Offer are issued on 11 November 2013 and 11 December 2013 respectively

a weighted average duration of 3.2 years as at 28 February 2014 when the final property being constructed is expected to complete.

The weighted average cost of debt across all facilities is expected to be 6.0% per annum (including margin) following completion of the Current Transaction. The interest rate on the SFA will reduce by a further 0.1% per annum while Growthpoint's loan to value ratio under this agreement remains below 45%.

Guidance

Growthpoint reconfirms its previously stated FY14 distributable income guidance of 19.6 to 20.0 cents per stapled security and its FY14 distribution guidance of 19.0 cents per stapled security.

Pro forma balance sheet gearing is expected to decrease to 43.5% while NTA is expected to increase to \$2.06 per stapled security.

Growthpoint's Managing Director, Timothy Collyer, said, "the equity raising supports the acquisition of the high quality industrial assets while also delivering Growthpoint the additional benefits of reduced gearing, Growthpoint's income growth is supported by quality tenants and a rising rental income backed by a WALE of approximately 7.0 years post the acquisitions and recent leasing successes announced.

HOW TO APPLY

THE RIGHTS OFFER

Growthpoint Properties Australia is making a Rights Offer of New Stapled Securities to Securityholders who have a registered address in Australia, New Zealand, South Africa or, for Institutional Securityholders, certain jurisdictions as determined by Growthpoint Properties Australia, (and who are not otherwise ineligible within the definition of 'Excluded Securityholders' in the Glossary).

Eligible Securityholders who are on Growthpoint Properties Australia's security register at 7.00 pm (Melbourne time) on Friday, 8 November 2013 (**Record Date**) will be entitled to apply for 1 New Stapled Security for every 10.15 Stapled Securities held on that date (Entitlement), at an issue price of \$2.45 per New Stapled Security. The issue price is payable in full on application.

The number of New Stapled Securities to which you are entitled is shown on the accompanying personalised Entitlement and Acceptance Form. In determining Entitlements, any fractional entitlements have been rounded up to the nearest whole number of Stapled Securities.

The New Stapled Securities will be fully paid.

DISTRIBUTION ENTITLEMENT OF THE NEW STAPLED SECURITIES

New Stapled Securities issued under the Rights Offer will **not** be entitled to the full amount of any distributions for the full year ending 30 June 2014. Instead, New Stapled Securities will be entitled to a pro-rata share of those distributions based on the period those securities are on issue during the half year for which the distribution is paid. Accordingly, the New Stapled Securities will initially trade under the code GOZN until commencement of trading on 23 December 2013 when existing Stapled Securities trade 'ex' the distribution. From 23 December 2013, New Stapled Securities will trade under the code GOZ and will rank equally with existing Stapled Securities for distributions

and in all other respects. The distributions for the half year ending 31 December 2013 are expected to be paid in February 2014.

AMOUNT TO BE RAISED

Approximately 40.8 million New Stapled Securities will be issued and Growthpoint Properties Australia will raise approximately \$100 million under the Rights Offer.

On 30 October 2013 Growthpoint Properties Australia also announced a placement to institutional investors to raise a further \$50 million at an issue price of \$2.45 per Stapled Security (**Placement**).

UNDERWRITING AND PARTICIPATION OF MAJOR SECURITYHOLDER

The Rights Offer is fully underwritten by Merrill Lynch Equities (Australia) Limited (**Merrill Lynch** or the **Underwriter**).

Growthpoint SA, which holds approximately 66.4% of the issued capital of Growthpoint Properties Australia, has committed to subscribe for its full Entitlement under the Rights Offer.

The remaining approximately 33.6% of the New Stapled Securities offered under the Rights Offer (**Balance**) will be sub-underwritten by Growthpoint SA.

Growthpoint SA will not participate in the Placement.

The degree to which Growthpoint SA's interest in Growthpoint will change will depend on whether Growthpoint SA is allocated any shortfall under its sub-underwriting arrangements, which in turn will depend on the rate of take-up by other Eligible Securityholders.

If Growthpoint SA takes up all of the Balance its holding would remain at approximately 66.4% post the Placement and Rights Offer.

PARTICIPATION OF PLACEMENT INVESTORS

New investors in the Placement are not eligible to participate in the Rights Offer.

RIGHTS TRADING

The Rights Offer is renounceable. This means that Eligible Securityholders who do not wish to take up all or some of their Entitlement may sell or transfer the rights to

their Entitlement (**Rights**). Information on how Rights may be sold or transferred is set out below. The Rights will be quoted on ASX. If you decide not to exercise all or part of your Rights, you should consider whether to renounce your Rights.

Excluded Securityholders will not be able to sell or transfer their Rights on ASX or otherwise.

ADDITIONAL STAPLED SECURITIES

Eligible Securityholders may, in addition to taking up their Entitlement in full, apply for Additional Stapled Securities in excess of their Entitlements. Additional Stapled Securities will only be available where there is a shortfall (**Shortfall**) between applications received from Eligible Securityholders (or from persons to whom their Rights have been transferred or sold) and the number of New Stapled Securities proposed to be issued under the Rights Offer (excluding the Rights of Excluded Securityholders). Additional Stapled Securities will be issued at the offer price of \$2.45 per New Stapled Security. The allocation of Additional Stapled Securities, and any scaleback, will be determined by Growthpoint Properties Australia in consultation with the Underwriter.

SHORTFALL BOOKBUILD

Growthpoint Properties Australia has appointed the Underwriter to sell the New Stapled Securities representing the Shortfall through a bookbuild (**Bookbuild**), which will take place on Thursday, 5 November 2013.

If the New Stapled Securities cannot be sold for the Offer Price under the Bookbuild, the New Stapled Securities will be subscribed for by the Underwriter in accordance with the Underwriting Agreement (see Section 5).

ALLOCATION POLICY

All Eligible Securityholders who apply for New Stapled Securities will, at a minimum, have their applications satisfied up to their Entitlement, unless all or part of the Rights Offer is withdrawn. If applications for Additional Stapled Securities exceed the Shortfall, Growthpoint Properties Australia in consultation with the Underwriter may scale back applications for Additional Stapled Securities based on the pro rata entitlement of Applicants that apply for Additional Stapled Securities.

Growthpoint Properties Australia and the Underwriter reserve the right to allocate the Stapled Securities forming part of any Shortfall in their absolute discretion. Eligible Securityholders who apply for Additional Stapled Securities may be allocated a lesser number of Additional Stapled Securities than applied for, or may be allocated no Additional Stapled Securities at all, in which case excess Application Money will be refunded without interest.

ALTERNATIVES AVAILABLE

If you are an Eligible Securityholder, you may take any of the following actions:

1. Take up your Entitlement in full*.
2. Take up your Entitlement in full and apply for Additional Stapled Securities*.
3. Sell your Rights in full on ASX*.
4. Take up part of your Entitlement and sell the remaining Rights on ASX*.
5. Take up part of your Entitlement*.
6. Transfer all or part of your Rights to another person other than via ASX, with or without taking up the balance of your Entitlement*.

7. Do nothing and allow all of the New Stapled Securities representing your Entitlement to be offered through the Bookbuild (refer to section 4 'Bookbuild').*

***Note: refer to pages 14-15 of this Offer Booklet for details of 'What You Need to Do'**

As a result of this Rights Offer and the Placement, Securityholders who do not take up all of their Entitlement will have their percentage securityholding in Growthpoint Properties Australia diluted.

ROLE OF YOUR STOCKBROKER

Where you elect to sell Rights, your stockbroker will act on your behalf. Growthpoint Properties Australia accepts no responsibility for any failure by your stockbroker to carry out your instructions. Persons buying Rights will need to pay the Application Money to take them up and should follow the directions of their stockbroker.

ENTITLEMENTS OF EXCLUDED SECURITYHOLDERS

In compliance with Listing Rule 7.71 and sections 708AA, 1012DAA (including section 9A) of the Corporations Act, Growthpoint Properties Australia will arrange for the sale on ASX of the Rights that would have been granted to Excluded Securityholders. Growthpoint Properties Australia will direct the net proceeds (if any) to Excluded Securityholders.

Growthpoint Properties Australia will have the absolute and sole discretion to determine the timing and the price at which the Rights may be sold and the manner in which any sale is made. Any interest earned or the proceeds of the sale of these Rights will be applied against the expenses of such sale, including brokerage, and any balance will accrue to Growthpoint Properties Australia.

The net proceeds of sale (if any) will be paid in Australian dollars to the Excluded Securityholders for whose benefit the Rights have been sold in proportion to their securityholdings (after deducting expenses). If any such net proceeds of sale are less than the reasonable costs that would be incurred by Growthpoint Properties Australia for distributing those proceeds, such proceeds may be retained by Growthpoint Properties Australia.

Notwithstanding that the Underwriter and Growthpoint Properties Australia may sell Rights, Excluded Securityholders may nevertheless receive no net proceeds if the costs of the sale are greater than the sale proceeds.

Growthpoint Properties Australia will not be liable for a failure to sell Rights or to sell Rights at any particular price. If, in the reasonable opinion of Growthpoint Properties Australia, there is no viable market for the Rights of Excluded Securityholders, or a surplus over the expenses is unlikely to be obtained for the Rights that would have been offered to the Excluded Securityholders, then the New Stapled Securities that represent these Rights will be offered for sale through the Bookbuild.

IMPORTANT INFORMATION

GENERAL

You should read the information in this Offer Booklet carefully and in its entirety before deciding whether to invest in New Stapled Securities. In particular, you should consider the risk factors outlined in the Investor Presentation contained in this Offer Booklet at page 23, which was separately released to the ASX on 30 October 2013 that could affect the operating and financial performance of Growthpoint Properties Australia or the value of an investment in Growthpoint Properties Australia.

Growthpoint Properties Australia has applied for the grant by ASX of official quotation of the New Stapled Securities. If the ASX does not grant quotation for the New Stapled Securities, Growthpoint Properties Australia will not allot any New Stapled Securities and all Application Money will be refunded without interest.

It is expected that normal trading will commence in relation to New Stapled Securities issued under the Rights Offer on Thursday, 12 December 2013. Growthpoint Properties Australia disclaims all liability (to the maximum extent permitted by law) to persons who trade New Stapled Securities before the New Stapled Securities are quoted on ASX or receiving their confirmation of issue, whether on the basis of confirmation of the allocation provided by Growthpoint Properties Australia or the Registry.

EXCLUDED SECURITYHOLDERS

Growthpoint Properties Australia is only making an offer under the Rights Offer to Eligible Securityholders. An Eligible Securityholder is a holder of Stapled Securities who is registered as a holder of Stapled Securities as at 7.00pm (Melbourne time) on the Record Date and who is not an Excluded Securityholder.

A person will be an **Excluded Securityholder** if that person:

- › has a registered address which is not in Australia, New Zealand or South Africa (or, for Institutional Securityholders, any other jurisdiction as Growthpoint Properties Australia determines);
- › is in the United States or is a U.S. Person (as defined in Regulation S under the U.S. Securities Act of 1933) or acting for the account or benefit of a U.S. Person; or
- › is ineligible under any applicable securities laws to receive an offer under the Rights Offer.

Growthpoint Properties Australia has decided that it is unreasonable to extend the Rights Offer to Excluded Securityholders having regard to:

- › the number of Securityholders outside Australia, New Zealand and South Africa;
- › the number and value of New Stapled Securities that would be offered to Securityholders outside of Australia, New Zealand and South Africa; and
- › the cost of complying with the legal requirements, and requirements of regulatory authorities, in the overseas jurisdictions.

On 30 October 2013, Growthpoint Properties Australia entered into an underwriting agreement (**Underwriting Agreement**) with the Underwriter under which the Underwriter has agreed to manage and underwrite the Rights Offer and Placement on the terms and subject to the conditions set out in the Underwriting Agreement. The Underwriter will be remunerated by Growthpoint Properties Australia for providing these underwriting and offer management services and may also be reimbursed for certain expenses.

In accordance with the Underwriting Agreement and as is customary with these types of arrangements:

- › Growthpoint Properties Australia has (subject to certain usual limitations) agreed to indemnify the Underwriter, its related bodies corporate and affiliates, each of their respective directors, officers, employees, advisors, representatives and agents and any persons who control them (**Indemnified Parties**) against any liabilities arising directly or indirectly

- › Growthpoint Properties Australia and the Underwriter have given representations, warranties and undertakings in connection with (among other things) the conduct of the Rights Offer and Placement;
- › The Underwriter may enter into sub-underwriting agreements;
- › The Underwriter may (in certain circumstances, including having regard to the materiality of the relevant event) terminate the Underwriting Agreement and be released from their obligations under it on the occurrence of certain events on or prior to the date of allotment of the New Stapled Securities under the Rights Offer including (but not limited to) where:
 - a statement contained in the offer materials is or becomes false, misleading or deceptive (including by omission) or likely to mislead or deceive or the offer materials omit any information they are required to contain (having regard to the relevant Corporations Act requirements);
 - Growthpoint Properties Australia ceases to be admitted to the official list of ASX or if its securities cease to be quoted or are suspended from official quotation on ASX;
 - Growthpoint Properties Australia withdraws the Placement or the Rights Offer;
 - There are material adverse changes to the financial markets of key countries or hostilities commence or escalate in key countries;
 - Certain falls in the S&P/ASX 200 or S&P/ASX 200 A-REIT indices occur; or
 - There is a material adverse change, or event involving a prospective material adverse change, in the condition, financial or otherwise, or in the assets, earnings, business, affairs, results of operations, management or prospects of Growthpoint Properties Australia.

The above is not an exhaustive list of the termination events in the Underwriting Agreement.

Neither the Underwriter (whether in that capacity or otherwise) nor any of its related bodies corporate and affiliates, nor any of their respective directors, officers, partners, employees, representatives or agents has authorised or caused the issue of this booklet and take no responsibility for any information in this booklet or any action taken by you on the basis of such information, and have not made or purported to make any statement in this booklet, and there is no statement in this booklet which is based on any statement by them. To the maximum extent permitted by law, the Underwriter (whether in that capacity, or otherwise) and each of its related bodies corporate and affiliates and each of their respective directors, officers, partners, employees, representatives or agents excludes and disclaims all liability for expenses, losses, damages or costs incurred by you as a result of your participation in the Rights Offer and the information in this booklet being inaccurate or incomplete in any way for any reason, whether by negligence or otherwise.

TAXATION

Set out below is a summary of the Australian tax implications of the Rights Offer for Eligible Securityholders who are residents of Australia for tax purposes and who hold their Stapled Securities as capital assets.

The summary below does not apply to Eligible Securityholders who hold their Stapled Securities as assets used in carrying on a business or who may carry on the business of security trading, banking or investment.

The summary below does not apply to Eligible Securityholders whose Stapled Securities are held through an employee security plan or whose Stapled Securities are held as revenue assets or trading stock.

The summary below also does not take account of any individual circumstances of any particular Eligible Securityholder. Eligible Securityholders should seek specific advice applicable to their own particular

circumstances from their own financial or tax advisers.

The summary below is based on the law in effect as at the date of this Offer Booklet.

ISSUE OF RIGHTS

Subject to the qualifications noted above, the issue of the Rights will not itself result in any amount being included in the assessable income of an Eligible Securityholder.

EXERCISE OF RIGHTS

Eligible Securityholders who exercise their Rights and are allocated New Stapled Securities (including any Additional Stapled Securities applied for and allocated) will have a cost base for capital gains tax (CGT) purposes of their new units and shares in, respectively, Growthpoint Properties Australia Trust (the **Trust**) and Growthpoint Properties Australia Limited equal to a reasonable apportionment of the offer price payable by them for those stapled securities plus a reasonable apportionment of any non-deductible incidental costs they incur in acquiring them.

Eligible Securityholders should not make any capital gain or loss, or assessable income, from exercising Rights or subscribing for the New Stapled Securities.

SALE OR TRANSFER OF RIGHTS

The sale or transfer of Rights will give rise to a CGT event for a Securityholder on the date of sale or transfer. On the basis that Securityholders will have little or no cost base in their Rights, a Securityholder that:

- (a) sells their Rights on ASX will make a capital gain broadly equal to the sale proceeds received ; or
- (b) transfers their Rights other than by sale on ASX will make a capital gain broadly equal to the sale proceeds received or the market value of those Rights at the time of transfer (if the sale proceeds are more or less than the market value of those Rights).

On the basis that Rights are to be issued to existing Securityholders, the Rights will be treated for the purposes of the CGT rules as having been acquired when the Securityholder's securities were acquired. In order to benefit from the CGT discount that

may be available to individuals, trust and complying superannuation funds in respect of a sale or transfer of Rights, the Securities to which the Rights relate must have been held for at least 12 months before the sale or transfer of the Rights.

NEW STAPLED SECURITIES

Eligible Securityholders who exercise their Rights will acquire New Stapled Securities (including any Additional Stapled Securities applied for and allocated). Any future dividends or other distributions made in respect of those New Stapled Securities will be subject to the same taxation treatment as dividends or other distributions made on Stapled Securities held in the same circumstances.

If Eligible Securityholders receive a 'tax deferred' distribution, it will generally not be included in an Eligible Securityholder's assessable income. However the tax deferred component will reduce the cost base of the units in the Trust and a capital gain will arise to the extent a tax deferred distribution exceeds the cost base of the units.

On any future disposal of New Stapled Securities, Eligible Securityholders may make a capital gain or capital loss, depending on whether the capital proceeds of that disposal are more than the cost base or less than the reduced cost base of the New Stapled Securities.

New Stapled Securities will be treated for the purposes of the CGT discount as having been acquired when the Eligible Securityholder exercised the Right to subscribe for them. Accordingly, in order to benefit from the CGT discount in respect of a disposal of those stapled securities, they must have been held for at least 12 months after that date before the disposal occurs.

OTHER AUSTRALIAN TAXES

No Australian Goods and Services Tax (GST) or stamp duty is payable in respect of the grant or exercise of Rights or the acquisition of New Stapled Securities⁵.

Securityholders should seek their own professional advice.

APPENDIX 2: CONTROL IMPLICATIONS

Control implications

- Growthpoint SA will not participate in the Placement
- The Rights Offer is structured as a pro rata offer to all eligible Growthpoint securityholders
- Growthpoint SA currently owns approximately 66.4% of the Securities on issue and has provided a commitment to take up all of its entitlements in relation to the Rights Offer. Growthpoint SA will also sub-underwrite the balance of the Rights Offer
- The degree to which Growthpoint SA's interest in Growthpoint will change will depend on whether Growthpoint SA is allocated any shortfall under its sub-underwriting arrangements for the Rights Offer, which in turn will depend on the rate of take-up by other eligible Growthpoint securityholders
- The table below outlines the potential interest Growthpoint SA will hold in Growthpoint following the Equity Raising at differing levels of securityholder participation in the Rights Offer
- Any increase in Growthpoint SA's interest in Growthpoint proceeds under Item 9 of Section 611 of the Corporations Act

Key risks

Property Acquisitions

- A key element of the Group's future strategy will involve the acquisition of properties to add to its property portfolio. Whilst it is the Group's policy to conduct a thorough due diligence process in relation to any such acquisition, risks remain that are inherent in such acquisitions.
- Growthpoint may acquire assets to add to its portfolio. There are inherent risks in such acquisitions. These risks could include unexpected problems or other latent liabilities such as the existence of asbestos or other hazardous materials or environmental liabilities. There are also risks associated with integration of businesses, including financial and operational issues as well as employee related issues. There is also a risk the expected benefits, synergies and other advantages in relation to the acquired assets will not be realised. Growthpoint's value, earnings and distributable income may be adversely affected by the occurrence of any of these risks.

Risks associated with Development of the Victorian Industrial Portfolio

- There is a risk that the developer and/or builder may be unable to complete their contractual obligation to develop the Victorian Industrial Portfolio. The Group is not a developer and has put in place various arrangements designed to minimise, as much as possible, the loss which may arise to the Group as a result of this occurring. Despite these various arrangements, there is a risk that the Group may not be able to procure the completion of the Victorian Industrial Portfolio either at all or at a similar cost/timeframe as currently proposed if this risk occurs.

Counterparty / credit risk

- A REITs are exposed to the risk that third parties, such as tenants, developers, service providers and financial counterparties to derivatives (including foreign exchange and interest rate hedging instruments) and other contracts may not be willing or able to perform their obligations.

Tenant Risk

- There is a risk that tenants may default on their rental or other obligations under leases with the Group, leading to a reduction in future income which may impact on the value of properties owned by the Group. Furthermore, there is a risk that the Group will be unable to negotiate suitable lease extensions from existing tenants or replace current leases with new tenants on similarly commercial terms which may impact the value of properties owned by the Group.
- The Group relies on certain key tenants for the majority of its revenue. Any financial difficulty or insolvency affecting a key tenant, or a breach of lease by a key tenant, could have a material adverse effect on the Group's financial performance or position.

Market Perception Risk

- The extent to which the Equity Raising enhances value for Securityholders depends on the Equity Raising being viewed as a positive initiative by the market. There is a risk that this will not be the case. For example, the market may not value the (enlarged) Group as highly as anticipated, because of concerns relating to factors such as the potential for other acquisitions which reduce headroom in debt facility covenants and the continued level of control held by Growthpoint SA. This may adversely impact on the market price of the Securities. The market value of the Securities may also differ from the underlying NTA.

Equity Raising

- The underwriting of the Equity Raising is subject to customary conditions and termination events. Most of the termination events are beyond Growthpoint's control. Therefore there is a risk that part or all of the Equity Raising will not be underwritten. If the underwriting agreement is terminated, there is a risk that Growthpoint will raise less proceeds than outlined in the presentation.

Trust Taxation Status

- Currently, the Growthpoint Properties Australia Trust will not incur tax on income provided that income is distributed. However, the Trust would lose this tax transparency if there is a legislative change which removed the tax transparency of property trusts or Growthpoint Properties Australia Trust engages in business activities which lead to it being subject to tax at the corporate tax rate. It is the intention of the Directors that the Growthpoint Properties Australia Trust will be managed so that the trust is not taxed at the corporate rate under the existing law.
- Depending on investors' individual circumstances, a loss of the Growthpoint Properties Australia Trust's tax transparency may adversely affect post tax investment returns. In addition, the taxation treatment of Securityholders is dependent upon the tax law as currently enacted in Australia and other relevant jurisdictions. Changes in tax law or changes in the way tax law is expected to be interpreted in Australia or such other jurisdictions may adversely impact the tax outcomes for Securityholders.
- Changes to the unit holder composition could impact Growthpoint Properties Australia Trust and its subsidiary entities' ability to utilise prior and current year tax losses. While GOZ does not anticipate this offer will trigger a change of control for tax purposes, any movements in the register will be factored into future change of control monitoring.

Key risks

Capital Expenditure

- There is a risk that unforeseen capital expenditure may be required under the terms of the current property leases. This may in turn impact the cash available to service debt and the value of the Group.

Environmental

- The Group's properties may, from time to time, be exposed to a range of environmental risks, including asbestos, which may require remedial work and potentially expose the Group to third party liability. This could potentially impact earnings, distributions and property values.

Competition

- The value of property held by the Group may be negatively affected by oversupply or overdevelopment in surrounding areas. Alternatively, prices for properties the Group is considering for acquisition may be inflated via competing bids by other prospective purchasers.

Funding and Refinancing Risk

- Market volatility has had a significant impact on the real estate sector and its ability to access capital from investors. The real estate investment industry tends to be highly capital intensive. The ability of the Group to raise funds on favourable terms for future refinancing (first requirement 30 April 2016 assuming that capital raising proceeds of at least \$30 million is used to pay down current short term debt) and acquisitions depends on a number of factors including general economic, political, and capital and credit market conditions. The inability of the Group to raise funds on favourable terms for future acquisitions and refinancing could adversely affect its ability to acquire new properties or refinance its debt.

Security Market Prices

- The market price of the Securities will depend on a variety of factors. The price at which these Securities trade on the ASX could deviate materially from their offer price. Factors including general movements in interest rates, domestic and international capital markets, macro-economic conditions, global geo-political events and hostilities, investor perceptions and other factors could all impact the market price performance.

Interest Rates

- To the extent that interest rate exposure has not been hedged, fluctuations in interest rates could impact the Group's funding costs adversely, resulting in a decrease in distributable income. Furthermore, fluctuations in interest rates may impact the Group's earnings before interest due to the impact this may have on the property market in which the Group operates.

Insurance

- The Group purchases insurance as is customary for property owners and managers. This insurance provides a degree of protection for the Group's assets, liabilities and people. There is a risk that insurance may not be available or sufficient. Furthermore, there are some risks that are uninsurable or risks where the insurance coverage is reduced.

Property Market Risks

- The Group will be subject to the prevailing property market conditions in the sectors in which it operates. Adverse changes in market sentiment or market conditions may impact the Group's ability to acquire, manage or develop assets, as well as the value of the Group's properties and other assets. These impacts could lead to a reduction in earnings and the carrying value of assets.

Debt Covenants

- The Group's debt facilities are subject to a variety of covenants including interest coverage ratios and loan to value ratios. In the event of unforeseen fluctuations in rental income or a fall in asset values, the Group may be in breach of its loan covenants and be required to repay amounts outstanding under the debt facilities immediately and sell properties at unacceptable prices. Furthermore, there is a risk that unforeseen capital expenditure may be required under the terms of the current leases. This may in turn impact the cash available to service debt.

Litigation and Disputes

- Legal and other disputes (including industrial disputes) may arise from time to time in the ordinary course of operations. Any such dispute may impact on earnings or affect the value of the Group's assets.

Regulatory Issues and Changes in Law

- Changes in laws or regulatory regimes may have a materially adverse impact on the financial performance of the Group by reducing income or increasing costs such as changes to environmental laws which may impact forecast capital expenditure.

Property Valuation Risk

- The value of properties held by the Group may fluctuate from time to time due to market and other conditions. Factors relevant to determining value include rental, occupancy levels and property yield, and these may change significantly over time for a variety of reasons. External and Directors' valuations represent only the analysis and opinion of such persons at a certain date and they are not guarantees of present or future values. The values of properties may impact on the value of an investment in the Group.

Buildings Condition and Defects

- The Group's properties are professionally managed by experienced property managers. Nevertheless, there is a risk that latent defects in the properties may prevent the properties being available for their intended use and/or may require additional capital expenditure. This may adversely affect returns available to Securityholders.

Property Illiquidity Risks

- Property assets are by their nature illiquid investments. Therefore, it may not be possible for the Group to dispose of assets in a timely manner should it need to do so. In addition, to the extent that there may be only a limited number of potential buyers for the properties, the realisable value of those assets may be less than book value of those assets.

Key risks

Employees and Directors

- The Group is reliant on retaining its key directors, senior executives and other employees. The loss of any director, senior executive employee or key personnel could negatively impact the Group's operations.

General Economic Conditions

- The Group's operating and financial performance is influenced by a variety of general economic and business conditions, including the level of inflation, interest rates, ability to access funding, oversupply and demand conditions and government fiscal, monetary and regulatory policies. Prolonged deterioration in these conditions, including an increase in interest rates and an increase in the cost of capital could have a material adverse impact on the Group's operating and financial performance.

Changes in Accounting Policy

- The Group must report and prepare financial statements in accordance with prevailing accounting standards and policies. There may be changes in these accounting standards and policies in the future which may have an adverse impact on the Group.

Forward Looking Statements and Financial Forecasts

- There can be no guarantee that the assumptions and contingencies contained within forward looking statements, opinions or estimates (including projections, guidance on future earnings and estimates) will ultimately prove to be valid or accurate. The forward looking statements, opinions and estimates depend on various factors, many of which are outside the control of the Group.
- No assurances can be given in relation to the payment of future distributions. Future determinations as to the payment of distributions by the Group will be at the discretion of the Directors and will depend upon the availability of profits, the operating results and financial condition of the Group, future capital requirements, covenants in relevant financing agreements, general business and financial conditions and other factors considered relevant by the Directors. No assurance can be given in relation to the level of franking or tax deferral of future distributions. Franking or tax deferred capacity will depend upon the amount of tax paid in the future, the existing balance of franking credits and other factors.

Fixed nature of costs

- Many costs associated with the ownership and management of property assets are fixed in nature. The value of properties (and the value attributed to Growthpoint) may be adversely affected if the income from the asset declines and these fixed costs remain unchanged.

Land values

- Events may occur from time to time that affect the value of land which may then impact the financial returns generated from particular property related investment businesses or projects. For example, unanticipated environmental issues may impact on the future earnings of Growthpoint. Such events may materially affect Growthpoint's earnings and value.

Foreign exchange/currency risk

- All information in this Presentation is provided in Australian dollars. Security holders who are based outside of Australia, or who rely on funding denominated in currency(s) other than the Australian dollar, should be aware of the impact that fluctuations in exchange rates may have on the value of their investments in, and returns from, GOZ.
