Section 1: Chairman's Letter

Dear Securityholder

On behalf of the Board of Growthpoint Properties Australia (**Growthpoint**), I am pleased to invite you to participate in a non-underwritten accelerated non-renounceable pro-rata rights offer of new Growthpoint Stapled Securities (**Rights Offer**).

As you may have read recently, Growthpoint announced to the market on Monday, 19 November 2018 that it was conducting a \$135 million equity raising to partly fund the acquisition of 100 Skyring Terrace, an A-grade office building located in Newstead, QLD. New Stapled Securities are being offered at a price of \$3.46. This represents a 4.2% discount to Growthpoint's last closing price on 16 November 2018 and a 4.5% discount to the 5-day volume weighted average price to 16 November 2018. Growthpoint has maintained distribution guidance for the 2019 financial year of 23.0 cents per Stapled Security. Based on the offer price, the New Stapled Securities issued as part of the Rights Offer are expected to receive a 2019 financial year distribution yield of 6.6%.

Use of proceeds

The proceeds of the Rights Offer will be used to partly fund the acquisition of 100 Skyring Terrace, an A-grade office building that Growthpoint has agreed to acquire for a purchase price of \$250 million. The balance of the acquisition will be funded from headroom under existing debt facilities. The property is a high-quality A-grade office building, which is 100% occupied with a strong lease covenant and a long weighted average lease expiry (**WALE**) of 7.5 years as at 19 November 2018. The acquisition is a continuation of Growthpoint's strategy to acquire high quality, modern assets, located in prime markets with long lease terms and fixed rental increases, which will underpin the future growth of Growthpoint's funds from operations (**FFO**). The acquisition will further diversify Growthpoint's high-quality portfolio and has provides further demonstration of the Group's ability to source and execute quality transactions for the benefit of Securityholders. Further details of the acquisition and the impact on Growthpoint's portfolio can be found in the investor presentation and ASX announcement, which are included in this booklet.

Overview of the Rights Offer

Existing Securityholders will receive 1 accelerated non-renounceable right (**Right**) for every 17.65 Stapled Securities held on the record date for the Rights Offer. Securityholders who are eligible to participate in the Rights Offer may choose to apply for all or some of their Rights, or do nothing. Securityholders who take up their entitlement in full may also apply for additional Stapled Securities in excess of their entitlement. However, there is no guarantee that they will be allocated any additional Stapled Securities.¹

New Stapled Securities issued under the Rights Offer will rank equally with existing Stapled Securities and be entitled to the full distribution for the half year ending 31 December 2018 of 11.4 cents per Stapled Security. Growthpoint Properties Limited (**Growthpoint SA**) has committed to take up its full entitlement of approximately \$89 million worth of Stapled Securities under the Rights Offer. The Retail Rights Offer will include an oversubscription facility under which eligible Retail

Securityholders who take up their full entitlement may apply for additional New Stapled Securities to the extent there are entitlements under the Retail Rights Offer that are not taken up. If a sufficient shortfall remains following the allocation of additional New Securities (if any), Growthpoint may conduct a Shortfall Bookbuild.

01: ASX Announcement continued

It is expected that the Acquisition will be completed on 7 December 2018. The property is fully leased with major ASX-listed tenants including Bank of Queensland and Collection House with the first significant lease expiry not until May 2026.

Completed in 2014, the building offers 24,665m² of lettable area across large floor plates, which have been orientated to maximise natural light. The building was architecturally designed by ML Designs with the highest quality fit out by Bates Smart. It was constructed by Hutchison Builders, Australia's largest privately owned construction company, and was a finalist in the Property Council of Australia's Innovation and Excellence Awards for Best Office Development. The building has 5.5 Star NABERS Energy Rating and 5 Green Star As Built v3 Rating.

The property is strategically located in Newstead, one of five precincts within Brisbane's near city office market which have been identified for urban renewal ("**Urban Renewal Precinct**")¹. At the northern gateway of the CBD, the property is within walking distance to all nodes of public transport and surrounded by plenty of parking options. The property is also in close proximity to a range of amenities, including a nearby abundance of open green spaces, cafes, restaurants, health clubs and retail.

The Brisbane economy is expected to be supported by strong population growth, tourism and over \$45 billion of public and private infrastructure investment forecast over the next four years². Brisbane's near city office market is the fastest growing office market in Australia³, driven by the Urban Renewal Precinct. In the six months to July 2018, vacancies in the Urban Renewal Precinct contracted from 14.3% to 13.7% with vacancy expected to continue to tighten in 2019. Urban Renewal Precinct A-Grade vacancy currently sits at 5.3%⁴, effectively fully occupied.

Growthpoint's Managing Director, Timothy Collyer, said:

"The Acquisition is a continuation of our strategy to acquire high-quality, modern assets located in prime markets with a long WALE and fixed rental increases which will underpin the future growth of Growthpoint's distributable income.

This Acquisition further diversifies Growthpoint's high-quality portfolio and has again demonstrated the group's ability to source and execute quality transactions across sectors for the benefit of securityholders. We will continue to pursue acquisition opportunities when it enhances the value proposition for our securityholders."

Equity raising

The Acquisition will be partially funded by a non-underwritten Rights Offer comprising an institutional rights offer (**Institutional Rights Offer**) and a retail rights offer (**Retail Rights Offer**). Under the Rights Offer, eligible securityholders will be invited to subscribe for 1 new Growthpoint security (**New Securities**) for every 17.65 existing Growthpoint securities held as at 7.00pm (AEDT⁵) on 21 November 2018 (**Record Date**) at an issue price of \$3.46 per New Security (**Issue Price**).

Up to approximately 39.0 million New Stapled Securities will be issued and Growthpoint Properties Australia will raise up to approximately \$135 million (in total) under the Rights Offer.

Participation of Major Securityholder

The Rights Offer will not be underwritten.

Growthpoint SA, which holds approximately 66% of the issued capital of Growthpoint Properties Australia, has committed to subscribe for its full Entitlement under the Rights Offer (approximately \$89 million worth of New Stapled Securities).

The degree to which Growthpoint SA's interest in Growthpoint Properties Australia will increase (if at all) will depend on the rate of take-up by Eligible Retail Securityholders.

If no other Eligible Institutional Securityholders and Eligible Retail Securityholders take up their Entitlements, Growthpoint SA's holding would increase to around 67.2% post the Rights Offer.

Growthpoint SA does not currently intend to make any material changes to the business of Growthpoint Properties Australia despite any increase in its securityholding.

Non-renounceable

The Rights Offer is non-renounceable, which means that the Entitlements cannot be traded or otherwise transferred on the ASX or any other exchange or privately. If you do not participate in the Rights Offer, you will not receive any value for your Entitlement.

Additional Stapled Securities

Eligible Retail Securityholders may, in addition to taking up their Entitlement in full, apply for Additional Stapled Securities in excess of their Entitlements. Additional Stapled Securities will only be available where there is a shortfall (**Shortfall**) between applications received from Eligible Retail Securityholders and the number of New Stapled Securities proposed to be issued under the Retail Rights Offer. Additional Stapled Securities will be issued at the Offer Price of \$3.46 per New Stapled Security. The allocation of Additional Stapled Securities, and any scaleback, will be determined by Growthpoint Properties Australia.

Allocation Policy

All Eligible Retail Securityholders who apply for New Stapled Securities will, at a minimum, have their applications satisfied up to their Entitlement, unless all or part of the Retail Rights Offer is withdrawn. If applications for Additional Stapled Securities exceed the Shortfall, Growthpoint Properties Australia may scale back applications for Additional Stapled Securities based on the pro-rata entitlement of Applicants that apply for Additional Stapled Securities.

Growthpoint Properties Australia reserves the right to allocate the Stapled Securities forming part of any Shortfall in its absolute discretion. Eligible Retail Securityholders who apply for Additional Stapled Securities may be allocated a lesser number of Additional Stapled Securities than applied for, or may be allocated no Additional Stapled Securities at all, in which case excess Application Money will be refunded without interest.

Shortfall Bookbuild

Growthpoint Properties Australia may offer to sell the New Stapled Securities representing the Shortfall post any allocation of Additional Stapled Securities through a bookbuild to existing and new institutional investors (**Shortfall Bookbuild**), which would take place after the Retail Rights Offer Closes.

New Stapled Securities issued under the Shortfall Bookbuild (if any) will be sold at the Offer Price of \$3.46.

Growthpoint Properties Australia retains the absolute discretion to not conduct a Shortfall Bookbuild if, in its opinion, there are insufficient New Stapled Securities available to properly conduct a bookbuild.

Section 3: Important Information

General

You should read the information in this Offer Booklet carefully and in its entirety before deciding whether to invest in New Stapled Securities. **In particular, you should consider the risk factors outlined in the Investor Presentation contained in this Offer Booklet at page 28, which was separately released to the ASX on Monday, 19 November 2018 that could affect the operating and financial performance of Growthpoint Properties Australia or the value of an investment in Growthpoint Properties Australia.**

Growthpoint Properties Australia has applied for the grant by ASX of official quotation of the New Stapled Securities. If the ASX does not grant quotation for the New Stapled Securities, Growthpoint Properties Australia will not allot any New Stapled Securities and all Application Money will be refunded without interest.

It is expected that normal trading will commence:

- in relation to New Stapled Securities issued under the Early Issue, on Thursday, 29 November 2018; and
- in relation to New Stapled Securities issued under the Final Issue, on Thursday, 13 December 2018.

Growthpoint Properties Australia disclaims all liability (to the maximum extent permitted by law) to persons who trade New Stapled Securities before the New Stapled Securities are quoted on ASX or receiving their confirmation of issue, whether on the basis of confirmation of the allocation provided by Growthpoint Properties Australia or the Registry.

Excluded Retail Securityholders

Growthpoint Properties Australia is only making an offer under the Retail Rights Offer to Eligible Retail Securityholders. An Eligible Retail Securityholder is a holder of Stapled Securities who is registered as a holder of Stapled Securities as at 7.00pm (Melbourne time) on the Record Date and who is not an Excluded Retail Securityholder.

A person will be an **Excluded Retail Securityholder** if that person:

- has a registered address which is not in Australia or New Zealand;
- is in the United States or is acting for the account or benefit of a person in the United States;
- is an Eligible Institutional Securityholder or was treated as an Excluded Institutional Securityholder under the Institutional Rights Offer; or
- is ineligible under any applicable securities laws to receive an offer under the Retail Rights Offer.

Growthpoint Properties Australia has decided that it is unreasonable to extend the Retail Rights Offer to Excluded Retail Securityholders having regard to:

- the number of Securityholders outside Australia and New Zealand;
- the number and value of New Stapled Securities that would be offered to Securityholders outside of Australia and New Zealand; and
- the cost of complying with the legal requirements, and requirements of regulatory authorities, in the overseas jurisdictions.

Notice to Nominees and Custodians

The Retail Rights Offer is being made to all Eligible Retail Securityholders. Nominees with registered addresses in the eligible jurisdictions, irrespective of whether they participate under the Institutional Rights Offer, may also be able to participate in the Retail Rights Offer in respect of some or all of the beneficiaries on whose behalf they hold Stapled Securities, provided that the applicable beneficiary would satisfy the criteria for an Eligible Retail Securityholder.

Nominees and custodians who hold Stapled Securities as nominees or custodians will have received, or will shortly receive, a letter from Growthpoint Properties Australia. Nominees and custodians should consider carefully the contents of that letter and note in particular that the Retail Rights Offer is not available to:

- (a) beneficiaries on whose behalf they hold Stapled Securities who would not satisfy the criteria for an Eligible Retail Securityholder;
- (b) Eligible Institutional Securityholders who received an offer to participate in the Institutional Rights Offer (whether they accepted their Entitlement or not);
- (c) Ineligible Institutional Securityholders who were ineligible to participate in the Institutional Rights Offer; or
- (d) Securityholders who are not eligible under all applicable securities laws to receive an offer under the Retail Rights Offer.

In particular, persons acting as nominees for other persons may not take up Entitlements on behalf of, or send any documents relating to the Retail Rights Offer to, any person in the United States.

Growthpoint Properties Australia is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Stapled Securities. Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Retail Rights Offer is compatible with applicable foreign laws. Growthpoint Properties Australia is not able to advise on foreign laws.

Taxation

Set out below is a summary of the Australian tax implications of the Rights Offer for Eligible Retail Securityholders who are residents of Australia for tax purposes and who hold their Stapled Securities as capital assets.

The summary below does not apply to Eligible Retail Securityholders:

- › who hold their Stapled Securities as assets used in carrying on a business or who may carry on the business of security trading, banking or investment; or
- › whose Stapled Securities are held through an employee security plan or whose Stapled Securities are held as revenue assets or trading stock.

The summary below:

- › is based on the law in effect as at the date of this Offer Booklet; and
- › does not constitute the giving of tax or financial advice. Each Securityholder's particular circumstances may be different and therefore it is recommended that they seek and rely on their own independent taxation advice.

Trust Taxation Status

Currently, Growthpoint Properties Australia Trust is an Attribution Managed Investment Trust (**AMIT**). It is the intention of the Directors that Growthpoint Properties Australia Trust will be managed so that the trust is not taxed as a corporate entity and continues to be an AMIT under the existing law.

Issue of Rights

Subject to the qualifications noted above, the issue of the Rights will not itself result in any amount being included in the assessable income of an Eligible Retail Securityholder.

Exercise of Rights

Eligible Retail Securityholders who exercise their rights and are allocated New Stapled Securities (including any additional Stapled Securities applied for and allocated) will have a cost base for capital gains tax (**CGT**) purposes of their new units and shares in, respectively, Growthpoint Properties Australia Trust (the **Trust**) and Growthpoint Properties Australia Limited equal to a reasonable apportionment of the offer price payable by them for those stapled securities plus a reasonable apportionment of any non-deductible incidental costs they incur in acquiring them.

Eligible Retail Securityholders will not make any capital gain or loss, or assessable income, from exercising Rights or subscribing for the New Stapled Securities.

New Stapled Securities

Any future dividends made in respect of new shares in Growthpoint Properties Australia Limited will be subject to the same taxation treatment as dividends on existing shares in Growthpoint Properties Australia Limited held in the same circumstances.

Amounts related to income and offsets of Growthpoint Properties Australia Trust determined by Responsible Entity to be of a particular tax character are attributed to Eligible Retail Securityholders who hold units in the trust and generally retain that tax character in the hands of the Eligible Retail Securityholder.

On any future disposal of New Stapled Securities, Eligible Retail Securityholders may make a capital gain or capital loss, depending on whether the capital proceeds of that disposal are more than the cost base or less than the reduced cost base of the New Stapled Securities.

New Stapled Securities will be treated for the purposes of the CGT discount as having been acquired when the Eligible Retail Securityholder exercised the Right to subscribe for them. Accordingly, in order to benefit from the CGT discount in respect of a disposal of those stapled securities, they must have been held for at least 12 months after that date before the disposal occurs.

Other Australian Taxes

No Australian Goods and Services Tax (**GST**) or stamp duty is payable in respect of the grant or exercise of Rights or the acquisition of New Stapled Securities.⁴

Key risks

PROPERTY ACQUISITIONS

A key element of the Group's future strategy will involve the acquisition of properties to add to its property portfolio. Whilst it is the Group's policy to conduct a thorough due diligence process in relation to any such acquisition, risks remain that are inherent in such acquisitions. Growthpoint may acquire assets to add to its portfolio. There are inherent risks in such acquisitions. These risks could include unexpected problems or other latent liabilities such as the existence of asbestos or other hazardous materials or environmental liabilities. There is also a risk the expected benefits, synergies and other advantages in relation to the acquired assets will not be realised. Growthpoint's value, earnings and FFO may be adversely affected by the occurrence of any of these risks.

GENERAL ECONOMIC CONDITIONS

The Group's operating and financial performance is influenced by a variety of general economic and business conditions, including the level of inflation, interest rates, ability to access funding, oversupply and demand conditions and government fiscal, monetary and regulatory policies. Prolonged deterioration in these conditions, including an increase in interest rates and an increase in the cost of capital could have a material adverse impact on the Group's operating and financial performance.

TENANT RISK

There is a risk that tenants may default on their rental or other obligations under leases with the Group, leading to a reduction in future income which may impact on the value of properties owned by the Group. Furthermore, there is a risk that the Group will be unable to negotiate suitable lease extensions from existing tenants or replace current leases with new tenants on similarly commercial terms which may impact the value of properties owned by the Group. The Group relies on certain key tenants for the majority of its revenue. Any financial difficulty or insolvency affecting a key tenant, or a breach of lease by a key tenant, could have a material adverse effect on the Group's financial performance or position.

BUILDINGS CONDITION AND DEFECTS

The Group's properties are professionally managed by experienced property managers. Nevertheless, there is a risk that latent defects or condition deterioration in the properties or buildings may prevent the properties being available for their intended use or may require additional capital expenditure. This may adversely affect returns available to Securityholders.

ENVIRONMENTAL

The Group's properties may, from time to time, be exposed to a range of environmental risks, including climate change or natural disasters, which may require remedial work and potentially expose the Group to third party liability. This could potentially impact earnings, distributions and property values.

INTEREST RATES

To the extent that interest rate exposure has not been hedged, fluctuations in interest rates could impact the Group's funding costs adversely, resulting in a decrease in FFO. Furthermore, fluctuations in interest rates may impact the Group's earnings before interest due to the impact this may have on the property market in which the Group operates.

FORWARD LOOKING STATEMENTS AND FINANCIAL FORECASTS

There can be no guarantee that the assumptions and contingencies contained within forward looking statements, opinions or estimates (including projections, guidance on future earnings and estimates) will ultimately prove to be valid or accurate. The forward looking statements, opinions and estimates depend on various factors, many of which are outside the control of the Group.

No assurances can be given in relation to the payment of future distributions. Future determinations as to the payment of distributions by the Group will be at the discretion of the Directors and will depend upon the availability of profits, the operating results and financial condition of the Group, future capital requirements, covenants in relevant financing agreements, general business and financial conditions and other factors considered relevant by the Directors.

No assurance can be given in relation to the level of franking or taxable components of future distributions. Franking capacity will depend upon the amount of tax paid in the future, the existing balance of franking credits and other factors.

FUNDING AND REFINANCING RISK

Market volatility has had a significant impact on the real estate sector and its ability to access capital from investors. The real estate investment industry tends to be highly capital intensive. The ability of the Group to raise funds on favourable terms for future refinancing and acquisitions depends on a number of factors including general economic, political, and capital and credit market conditions. The potential inability of the Group to raise funds on favourable terms for future acquisitions and refinancing could adversely affect its ability to acquire new properties or refinance its debt.

DEVELOPMENT RISKS

The Group is currently undertaking a development at Bolanicca corporate Park in Richmond, Victoria. The Group has a policy not to undertake developments in excess of 15% of assets. Inherent in undertaking a development of property is financial risk, competition risk, leasing risk, valuation risk and on-site physical construction risks.

TRUST TAXATION STATUS

Currently, Growthpoint Properties Australia Trust is an Attribution Managed Investment Trust (AMIT). Amounts related to income and offsets of Growthpoint Properties Australia Trust determined by the Responsible Entity to be of a particular tax character are attributed to Securityholders who hold units in the trust and generally retain that tax character in the hands of the Securityholder.

However, the trust may lose this treatment if there is a legislative change or Growthpoint Properties Australia Trust engages in business activities which lead to it being subject to tax at the corporate tax rate. It is the intention of the Directors that Growthpoint Properties Australia Trust will be managed so that the trust is not taxed as a corporate entity and continues to be an AMIT under the existing law.

Depending on the investor's individual circumstances, a change in the current tax treatment of the Growthpoint Properties Australia Trust may adversely affect post tax investment returns. In addition, the taxation treatment of Securityholders is dependent upon the tax law as currently enacted in Australia and other relevant jurisdictions.

Key risks

Changes to the unitholder composition could impact Growthpoint Properties Australia Trust and its subsidiary entities' ability to utilise prior and current year tax losses. While GOZ does not anticipate the Rights Offer will trigger a change of control for tax purposes, any movements in the register will be factored into future change of control monitoring.

EMPLOYEES AND DIRECTORS

The Group is reliant on retaining its key directors, senior executives and other employees. The loss of any director, senior executive or key employee could negatively impact the Group's operations.

CAPITAL EXPENDITURE

There is a risk that unforeseen capital expenditure may be required under the terms of the current property leases as the result of the presence of unexpected hazardous materials or environmental liabilities. This may in turn impact the cash available to service debt and the value of the Group.

REGULATORY ISSUES AND CHANGES IN LAW

Changes in laws or regulatory regimes may have a materially adverse impact on the financial performance of the Group by reducing income or increasing costs such as changes to environmental laws which may impact forecast capital expenditure.

RIGHTS OFFER

GRT has committed to take up its full entitlement under the Rights Offer of approximately \$89 million worth of New Securities, with the balance of the Rights Offer of approximately \$46 million not underwritten. In circumstances where the Rights Offer is not fully subscribed, Growthpoint will draw on additional debt under its existing facilities to finance the Acquisition.

MARKET PERCEPTION RISK

The extent to which the Rights Offer enhances value for Securityholders depends on the Rights Offer being viewed as a positive initiative by the market. There is a risk that this will not be the case. For example, the market may not value the (enlarged) Group as highly as anticipated, because of concerns relating to factors such as the potential for other acquisitions which reduce headroom in debt facility covenants and the continued level of control held by Growthpoint SA. This may adversely impact on the market price of the Securities. The market value of the Securities may also differ from the underlying NTA.

PROPERTY ILLIQUIDITY RISKS

Property assets are by their nature illiquid investments. Therefore, it may not be possible for the Group to dispose of assets in a timely manner should it need to do so. In addition, to the extent that there may be only a limited number of potential buyers for the properties, the realisable value of those assets may be less than book value of those assets.

INSURANCE

The Group purchases insurance as is customary for property owners and managers. This insurance provides a degree of protection for the Group's assets, liabilities and people. There is a risk that insurance may not be available or sufficient. Furthermore, there are some risks that are uninsurable or risks where the insurance coverage is reduced.

DEBT COVENANTS

The Group's debt facilities are subject to a variety of covenants including interest cover ratios and loan to value ratios. In the event of unforeseen fluctuations in rental income, or a fall in asset value, the Group may be in breach of its loan covenants and be required to repay amounts outstanding under the debt facilities immediately and sell properties at reduced prices. Furthermore, there is a risk that unforeseen capital expenditure may be required under the terms of the current leases as the result of the presence of unexpected hazardous materials or environmental liabilities. This may in turn impact the cash available to service debt.

FIXED NATURE OF COSTS

Many costs associated with the ownership and management of property assets are fixed in nature. The value of properties (and the value attributed to the Group) may be adversely affected if the income from the asset declines and these fixed costs remain unchanged, or increase.

PROPERTY MARKET RISKS

The Group will be subject to the prevailing property market conditions in the sectors in which it operates. Adverse changes in market sentiment or market conditions may impact the Group's ability to acquire, manage or develop assets, as well as the value of the Group's properties and other assets. These impacts could lead to a reduction in earnings and the carrying value of assets.

LAND VALUES

Events may occur from time to time that affect the value of land which may then impact the financial returns generated from particular property related investment businesses or projects. For example, unanticipated environmental issues may impact on the future earnings of the Group. Such events may materially affect the Group's earnings and value.

COUNTERPARTY / CREDIT RISK

AREITs are exposed to the risk that third parties, such as tenants, developers, service providers and financial counterparties to derivatives (including foreign exchange and interest rate hedging instruments) and other contracts may not be willing or able to perform their obligations.

PROPERTY VALUATION RISK

The value of properties held by the Group may fluctuate from time to time due to market and other conditions. Factors relevant to determining value include rental, occupancy levels and property yield, and these may change significantly over time for a variety of reasons. External and Directors' valuations represent only the analysis and opinion of such persons at a certain date and they are not guarantees of present or future values. The values of properties may impact on the value of an investment in the Group.

LITIGATION AND DISPUTES

Legal and other disputes (including industrial disputes) may arise from time to time in the ordinary course of operations. Any such dispute may impact on earnings or affect the value of the Group's assets.

FOREIGN EXCHANGE/CURRENCY RISK

All information in this Presentation is provided in Australian dollars. Securityholders who are based outside of Australia, or who rely on funding denominated in currency(s) other than the Australian dollar, should be aware of the impact that fluctuations in exchange rates may have on the value of their investments in, and returns from, the Group.

COMPETITION

The value of property held by the Group may be negatively affected by oversupply or overdevelopment in surrounding areas. Alternatively, prices for properties the Group is considering for acquisition may be inflated via competing bids by other prospective purchasers.

CHANGES IN ACCOUNTING POLICY

The Group must report and prepare financial statements in accordance with prevailing accounting standards and policies. There may be changes in these accounting standards and policies in the future which may have an adverse impact on the Group.

SECURITY MARKET PRICES

The market price of the Securities will depend on a variety of factors. The price at which these Securities trade on the ASX could deviate materially from their offer price. Factors including general movements in interest rates, domestic and international capital markets, macro-economic conditions, global geo-political events and hostilities, investor perceptions and other factors could all impact the market price performance.
